Professional Experience

Clinical Research Coordinator

March 2021 - October 2021

Adams Clinical

Watertown, MA

- Coordinated double-blind studies to determine the efficacy of experimental medications
- Scheduled and facilitated participant visits to ensure that participants adhered to study guidelines
- Conducted phone interviews with prospective participants to learn about their needs and discuss the possibility of study participation
- Performed blood draws and centrifuged samples to prepare for analysis

Pharmacy Technician

August 2020 - March 2021

Community Pharmacy

Boston, MA

- Assisted pharmacist in filling prescriptions to facilitate the accurate and efficient dispensing of medications
- Interfaced with customers, answering basic questions about prescriptions and connecting them with a pharmacist for in depth information

Project Manager

January 2020 - May 2020

Ignite Mental Health

Allston, MA

- Developed survey materials for data collection pertaining to the mental health resources offered at 100+ universities across America
- Conducted phone screens and interviews with prospective interns to ensure that positions were filled with qualified applicants who could thrive in the company environment

Peer Educator

August 2018 - May 2019

M-Hope

Vestal, NY

- Delivered presentations to 100+ students on mental health issues commonly affecting college populations, to inform them on conditions such as depression and anxiety
- Engaged in outreach through tabling at various campus events in order to connect students with important mental health resources such as the university counseling center
